

MISSION STATEMENT

Our Mission is to provide a safe, secure, and humane correctional system through effective supervision and appropriate treatment, and a continuum of services that promote successful re-entry into society.

Services

Each client has a case manager that works hand-in-hand on ways to overcome their community re-integration.

Goals

The goals of the program are to increase skills and income, to teach people how to live independently, and to find permanent affordable housing. All clients that utilize services must be working with a case manager. This allows us to ensure that our clients are moving toward their own personal goals.

Collaboration

We promote positive relationships through cooperation and collaboration in partnership with others as we strive to achieve common goals.

Accountability

We adhere to holding ourselves and our co-workers accountable in carrying out our mission, values, policies, and directives, and in upholding the laws of the State of Georgia.
